Instruction manual for Chipfillingcard System:

On the breathing air-Compressorstation in the Diving - Training - Center - Attersee –
Steinbach – Seefeld – Campingplace Föttinger.

1. In the fillingcabinet are 4 pieces Security-Fillingpipe with each 2 x DIN and 2x INT Connections available.
2. Connect your divingequipment to the filling pipe but before put up the fastcloseoutlet vertical. (Lift hand gear) . After that open the diving bottle outlet.
3. The analog and digital manometer shows you the residual pressure in your diving bottle.
4. Stick your DIVING – FILLINGCARD from the left in the deposited banker´s card domain. At this place ist the Chipcardreader and the wearout free Transponder – Technology arranged. On the display will be shown for 6 seconds, how much credit or your actual bank balance or on the chipcard – DIVER - FILLINGCARD available is.
5. Press the button **green at least 3 seconds.** The compressor starts to fill. It either turns of, when the maximum filling pressure from 225 Bar is reached, ort he Chipcard-credit is all used up or you take the Chipfillingcard from the cardreader away or you either press the **STOP** button (Red)
6. The filling process for the diving bottles can be interrupted or stopped at any time when the button STOP (red) is pressed or the DIVING – FILLINGCARD is taken away from the cardreader.
7. The use of the **NOT-AUS** button is only in real emergency reasons permittet.
8. It is exactly pointed out, that only in the meaning of the international rules and regulations authorized, demonstrable skilled people – authorized people are allowed to fill diving equipment.
9. Underage people have no access to the fillingcabinet. Parents adhere for their children.
10. **After finishing with the filling process** and reaching the maximal final pressure from 225 Bar first close the bottle outlet, then place back fast close outlet (Pull back hand gear) and separate from the diving bottle.
11. Put back the filling pipe in the fillingcabinet and close the fillingcabinetdoor.
12. To charge your personal chipcard you can also inform us per e-mail at: kadasch@aon.at with receipt of your deposit amount on the bank account of the “Allgemeine Sparkasse Linz” ,**IBAN Nr. AT432032000401600558** **BIC Nr. ASPKAT2LXXX** you will recieve a paid-up amount on your personal Chip DIVING – DEPOSIT VALUE – FILLINGCARD credited. There is also a direct debit mandate with your bank, a charge process at every time possible.
13. The filling prices are since more than 30 years the same. For € **1.00** you can get about 450 - 500 Liter **Pure Air Breathingair** in about 1 minute.
14. The use of the newest Transponder-Technology offers in addition a not to underestimatet security against manipulation and adulteration, because the bank balance of the user is not on the fillingcard but instead it is saved in the data bank of the filling computer.
15. Also is the individual Transponder – ID only in the software incoded depositet.
16. This ist he fairest, exactest, modernst, most comfortablest and safest filling cost deduction in whole Austria **and you are from 1,-€ Coinbuisness independent !!!**

I wish all DIVERS nice and restorative dive sessions in lake Attersee an I am looking forward to your visit in the DIVING – TRAINING – CENTER – ATTERSEE *Hermann Kadasch*
